TO : K. Hunich, W. Sickler, T. Rockey, P. Henault

FROM : Carole V. Coe *Carole V. Coe*

SUBJECT : PCB Meeting at City Light

Recent E.P.A. regulations on the handling and disposal of capacitors and transformers, possibly containing PCBs, dictate that we must totally review our concepts of these regulations and our current procedures to comply with these rules.

Mr. Murray has concurred with my suggestion that a meeting of all interested parties be scheduled so that all questions relating to this subject can be resolved and we can make certain that our employees and the public are properly protected.

Please arrange to send a representative to a meeting scheduled for ~~10:00 a.m. on Friday, December 14, 1979, at 10:00 a.m.~~ This individual should be knowledgeable of the E.P.A. regulations and/or your current procedures in complying with these regulations.
